

SAFETY BANK

CUSTODY FUND

CUSTODY FUND FOR DIGITAL ASSETS

www.safetybank.site

contact@safetybank.site

The Company

SAFETY BANK believes that establishing alliances and strategies results in business synergy, increases contribution channels and drives market growth.

With the aim of consolidating our brand on the blockchain, we studied the market and believed in the idea that projects need to maintain an independent Custody Fund.

blockchain damage

Attacks on blockchain platforms caused \$3.8 billion in damage in 2020 alone.

- In 2022, 6 DeFi projects carried out \$2.7 million scams, according to data collected by market security companies.*
- Rug pull suspects were tracked and it was found that there were massive transfers of funds using Tornado Cash.*
- According to the mapping, these massive transfers, which totaled more than 5,744 WBNB, reaching the aforementioned loss, which were transferred by (TORN), a decentralized blockchain solution that breaks the link between the sending and destination addresses, to make it impossible to track transfers.*

Safety Bank's proposal

Provide Custody Fund, with administration independent of the project, stored in secure offline wallets, traceable, thus bringing guarantee and security to its investors, being able to use the fund(s) to be (in) reversed) in insurance in favor of its investors.

Fund available for attack(s) on address(es) suffered by hackers.

Fund available for projects that may make your project/proposal unfeasible or discontinue.

Custom Background.

Get in touch with us and together we will study and propose solutions that will make your project safer and more reliable in the eyes of investors.

www.safetybank.site

Custody Fund

Address/contract attack

Available Fund for attack(s) on address(es) suffered by hackers

The fund reserved for this event is used to repurchase the asset/token after project approval.

Tokens are purchased and sent to a single project wallet, minus swap expenses.

The treatment of the balance to be made available in this fund is up to the contractor, and Safety Bank is solely responsible for its custody.

Reserve for investors

Fund Available for projects that become unfeasible or discontinue

The fund reserved for this event is for exclusive use to reimburse token holders.

After the occurrence is registered on our platform, within a period of up to 30 (thirty) consecutive days and the occurrence is verified, the second stage will begin.

The second step will be the phase to register the holders of the tokens that were acquired during the term of the fund. This phase requires a period of 30 (thirty) business days.

In the third phase of the process, we will announce the unit value of each token, which will be indemnified to the holder.

Example:

Guarantee Fund - \$200,000 (includes all deposited balance)

Tokens acquired during the term of the Guarantor Fund - 180,000,000 tokens

Unit value per token - \$0.0011

After this announcement, we will start distributing the amount to each portfolio informed by the holders, until the process is finalized.

www.safetybank.site

Termination of the Fund

Monthly payment

The services offered by SAFETY BANK have a monthly maintenance subscription, to be paid by the contracting party.

In case of default in your monthly payment after 30 days of maturity, the contract will be CANCELLED and the amount deposited will be refunded, deducting the 5% fee to cover fines and charges resulting from the notification. Your amount will be available on our platform through fund consultation.

After a delay of 24 hours, the event of an attack by hackers will not be covered.

Custody Fund Policy

Every project will receive its policy detailing its funds allocated to each event, duration, custody address and its security key.

The security key is for public use, so that its authenticity can be consulted on our platform by interested parties, as well as the data of the respective policy.

Consultations

On our platform, it is possible to query data about the project policy by the contract's alphanumeric code and/or initials and/or project name and/or security key.

Fraud

- Our platform will provide real-time information for public access.
- Investors should charge the project for its maintenance and duration.

Events

- The use of the portfolio attack fund does not terminate the contract, and a new deposit can then be made, but after use it is left without coverage.
- In the event of project bankruptcy, the entire balance of the fund will be used to indemnify eligible holders.
- The background is "Project Property". However, in our custody, to guarantee part of a possible loss to token holders.

www.safetybank.site

DeFi

Applications and decentralized finance have been growing a lot since 2020. Today, around 96 billion dollars is locked in DeFi and that number continues to rise. And, of all applications, decentralized lending has attracted a lot of attention. In the centralized world of banking, lending is the most common and important operation. After all, it is by lending that financial institutions make money by charging interest on borrowed money.

Loans

SAFETY BANK is a unification of banking service with blockchain technology. Through our Custody Fund deposits, we will provide loans with collateral in BTC, ETH, among other collateral currencies.

- We will offer up to 40% of your guarantee with highly attractive interest.
- Diverse deadlines.
- Simplified and fast process.

DeFi Dividends

Todos os fundos ativos receberão parte da rentabilidade em seu Fundo Garantidor,, elevando assim seu saldo ao longo do tempo.

Exclusive Service

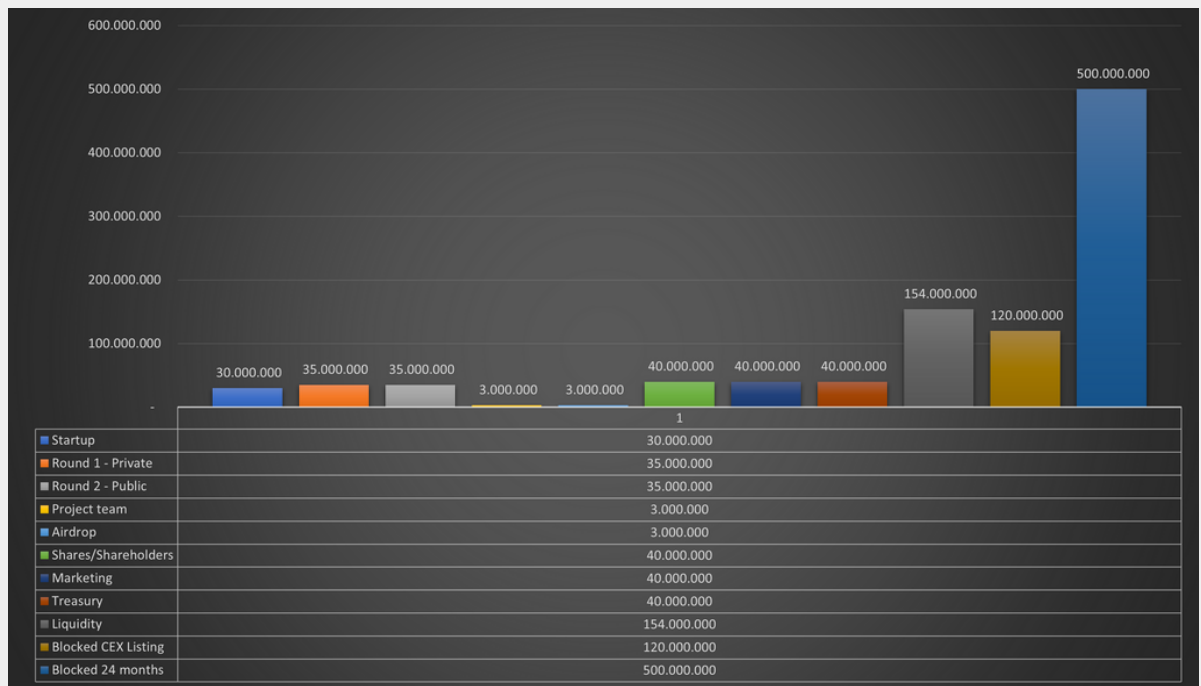

All loan requests will be made through our platform. When you enter the ANALYSIS status, you will receive a response from your assessment within a few moments.

Got questions? Don't worry!

We will provide an exclusive service channel for DeFi, via chat.

Token (SBANK)

Supply SBANK Tokens – 1,000,000,000 (1 billion) maximum

Distribution:

- 3.0% Collection (Startup) –

At the cost of \$0.03 Each SBANK / Total \$30,000,000 \$SBANK

See unlocking worksheet

Participation

Price per copy \$60 + network fees

1 copy = 2,000 SBANK tokens

Limited to 10 copies per address

Swap only USDT

- 3.5% Round 1 – \$0.050 (Private)
- 3.5% Round 2 – \$0.070 (Public)
- 50% Locked 24 months

To be decided by meeting and holders of the \$SBANK Token

- 15.4% Liquidity / Smart Growth
- 12% Locked in for listing on CEX
- 4.0% Marketing
- 0.30% Project team
- 0.30% Airdrop
- 4.0% Treasury
- 4.0% Members
